Soldier, Sailors Give a Magnificent Drill on Parade in Her Honor.

### TIM SULLIVAN A VISITOR

Crop Damage From the Freeze Not So Great as at First Supposed.

(Special to The Times-Dispatch.)  
NORFOLK, VA., April 21.—Miss Helen M. Gould, of New York, accompanied by a party of her friends who are interested in her Army and Navy Young Men's Christian Association work, attended a meeting of the Woman's Auxiliary of the Norfolk Naval Young Men's Christian Association today. Addresses were made by Captain Thomas commanding the naval training station here, and by prominent citizens. Captain Thomas lauded the work that has been done by the naval branch of the association.

Later the party went to the training station, where there was a special battalion drill in Miss Gould's honor. To-night she attended a special service for the seamen at the Cumberland Street Methodist Church.

On the spacious parade ground on the St. Helena side of the river, the battalion, which is to go to the Dixie upon her arrival here in a couple of weeks, was drawn up in a magnificent exhibition of military evolutions. Captain Thomas pronounced the battalion the finest he has ever turned out at this training station. In their new uniforms the boys made a most pleasing appearance. The fact that they have been in the service for three months, and that the finished exhibition was witnessed by given by boys who left their homes in the country but a few months ago, surprised Miss Gould greatly.

To-morrow Miss Gould will go to Richmond to open the Young Men's Christian Association building which has been dedicated to the service of that city.

Judge James E. Heath continues very ill at his home in this city. It is feared that he will not rally.

SULLIVAN A VISITOR.  
Congressman Timothy Sullivan of New York and State Senator Fitzgerald arrived here to-day and were entertained by Norfolk Acle of Eagles. To-night, several New York politicians, including Senator Grady, joined the party, and a visit was paid the Orphans' Bazaar.

The visitors were escorted to the Chamber Bazaar by a torchlight procession, in which 500 local members of the order participated.

A meeting of the joint battleship committees appointed by the municipal, business and labor bodies of the two cities held to-night at the office of the chairman, Hon. George E. Bowden. It was decided to send a delegation to Washington to-morrow night to make an effort to secure for this navy yard the collier which Congress yesterday authorized to be built at this station.

The Atlantic Coast. The committee will leave for Washington via steamer, and will meet the Secretary of the Navy on Saturday.

A large crowd went to Charles City Courthouse to-day to attend court. There is much business to be done this term, and it is thought the court will last all the week. Judge Mann will hold court for Judge Tyler, who is absent in a very important case, which he took before he was appointed judge.

BY MISS BEATRICE DARLINGTON.  
"Last spring I was very much run down and no work that the slightest exertion exhausted me so that I would have to sit down and wait until I could catch my breath and for my heart to stop fluttering."

"I was a particularly heavy, active girl, but my health left me suddenly and I began to grow weaker. I used to think that if I grew so weak in such a short time I would only be a little time longer before I would be on my bed, perhaps dying."

"I remember the day I took my first dose of Paine's Celery Compound. While visiting a friend's house I had a weak spell. The medicine did me so much good that on my way home I bought a bottle. The relief was great."

"I decided I would keep on taking little doses regularly until my system was built up, and I did so for three or four months. Occasionally I take a dose of Paine's Celery Compound now when the strain has been a little too much for me."

"But I never feel the awful smothering and heart-fluttering that I used to have, and it is only very seldom now that I really feel tired. I sleep and eat well, and my health is excellent."—Miss Beatrice Darlington, 30 Washington Square, New York, Jan. 6, 1904.

To-day Miss Darlington is well and strong. Her exquisite, clear complexion is a delight to the eye. Her run down, tired feeling is gone forever.

She is buoyant with health and vitality. For Paine's Celery Compound has given her the same vital strength and cheery health that it gives to every tired man and woman who relies upon it.

## THE BOARD OF AGRICULTURE

Meet at the Virginia Polytechnic Institute and Inspect the Institution.

### THE OFFICERS RE-ELECTED

Reports by the Commissioner and Superintendents of Experiment Stations.

(Special to The Times-Dispatch.)  
BLACKSBURG, VA., April 21.—The State Board of Agriculture and the executive committee of that body were in session here yesterday and to-day, and discussed many important matters, and disposed of a good deal of business. The members present, besides Dr. McBryde, who acted as host and member, were Messrs. J. H. Beverley, of Essex; Julian M. Ruffin, of Hanover; J. M. Barker, of Henry; J. T. Cowan, of Montgomery; William H. Egghorn, of Culpeper; J. B. Leach, of Rockbridge; and J. S. Gillespie, of Tazewell. Messrs. Heater, Goble and Mauck were unable to attend. Commissioner Kolner was present, and submitted his reports, all of which were most satisfactory, and were approved by the board.

OFFICERS RE-ELECTED.  
J. H. C. Beverley was unanimously elected president to succeed himself, he having already served the previous year as the presiding officer of the body. In again entering the office, he thanked the body for their expressions in regard to his past services.

No change was made in the organization of the board, except as to the term commencing May 1. F. Leach was made a member of that committee to succeed Julian M. Ruffin, who said that it would be impossible for him to serve another term upon the committee.

J. M. Barker, chairman of the test in agriculture committee, submitted a report of the work being done at the farm at Baze. Both he and Major Cowan had visited the farm the day before the board meeting, and made a thorough inspection of the place. The farm is being much improved, and the experiments being conducted will be of great interest to the farmers of the State, and especially to those of Southside Virginia.

The question of methods of inducing immigration to Virginia was discussed at some length. The board decided to have published literature, which is to be distributed by the department at the next annual meeting. A great deal of this literature will be distributed at the St. Louis Exposition.

The board was royally entertained by Dr. McBryde and the members of the faculty of the institute.

The various buildings and departments of the institute, and were shown the fine cattle, a sight of which was like viewing the winners in a live stock show. The institute is a great improvement, and the experiments being conducted will be of great interest to the farmers of the State, and especially to those of Southside Virginia.

The freeze of night before last was not unprecedented. It was the twenty-ninth anniversary of the most disastrous frost and freeze that has ever visited this section. Thousands of dollars of damage was done by the great cold snap of April 19, 1875.

On the 30th of April, four years later, there was another heavy freeze which also did great damage. The result of the present cold snap is insignificant compared with the damage done on the two occasions recalled by the institute in connection with the present cold.

The fact that the crops are backward this year is responsible to some extent for the small injury done the truck. In the Western Branch section the damage was principally to the strawberries.

The potato crop, which is known as the truckers' "money crop," suffered scarcely at all. Some few beans were injured slightly, but the damage will not be serious.

## A CLEVER COUNTERFEIT

One Dollar Bills Raised to Tens and Readily Passed as Good.

### THE BUFFALO AND EAGLE

No Adjustment of Differences Between Bell Telephone and Greensboro Citizens.

(Special to The Times-Dispatch.)  
GREENSBORO, N. C., April 21.—Some weeks ago a government detective was here looking into the reported circulation of ten dollar counterfeit bills in this community, and also after the counterfeiters. He went to Raleigh in track of the utterer or utterers of the counterfeit, having tracked them from Virginia. Yesterday two of the bills turned up at the banks here and were promptly turned down. It would seem that the counterfeiters have again come towards Greensboro. Experts can tell the counterfeit at a glance, though it is difficult for others to do so, as the bill is a facsimile of the genuine. It is a facsimile of the genuine. The raised bill, and the genuine one dollar bill, has an eagle on it, whereas the genuine ten dollar bill has a buffalo.

Philadelphia parties have leased the brick block of stores belonging to Dr. Lash, on North Elm Street, and on May 1st will establish an extensive steam bakery.

The adjustment of the differences between the telephone subscribers and the Bell Telephone Company is still in abeyance. A conference between the citizens' committee and the Bell people last night no agreement of compromise was reached, but a final proposition was made by the company, the answer to which is expected within the next ten days or ten years.

Fletcher Evans, colored, dropped dead from heart disease yesterday afternoon while standing by the rock crusher at the road work on the James River road. He was employed as manager of the machine, and was a valuable man.

ROANOKE, VA., April 21.—Five children have died during the last twenty-four hours in Roanoke from pneumonia. Twin boys of Mr. and Mrs. P. B. THE EXERCISES AT HAMPTON  
(Special to The Times-Dispatch.)  
NEWPORT NEWS, VA., April 21.—The exercises marking the thirty-sixth anniversary of the Hampton Institute to-day, were interesting. In addition to the more prominent members of the Ogee party, Governor Montague occupied a seat on the program. It would not be charity, but justice to a brave people, who had done much toward lifting up the freed slaves.

DOES YOUR SCALP ITCH?  
Are Your Hairs Dropping Out by Ones?  
If your scalp itches you are doubtless suffering from dandruff. The dandruff germ is digging your scalp in little flakes, and is eating and sapping the life of the hair bulb. No hair preparation that is a mere hair stimulant and tonic will cure dandruff, because it won't kill the germ that causes the trouble. Newbrow's Herpicide is the latest scientific discovery. It destroys the cause, and you remove the effect; kill the germ and you will have no more dandruff, falling hair or baldness. Sold by leading druggists.
